## NOTICE

### **The Workshop on Viet Nam National Qualification Framework and Higher Education Program Development**

#### **Introduction**

Over the last decade, we have recognized the role of reforming education in elevating competitive ability in each country. Thus, problems involving education quality, life-long study, recognizing the learning outcomes or problems which help improving the career competencies for every citizen to adapt to change in a constantly changing business environment must be solved. Therefore, many nations in the world have built the National Qualifications Framework (NQF) in believing that it would help to bring back better quality, ensuring the educating level, meeting the social economic needs, providing the flexibility and progressive to the learner and to gain international recognition.

As a member of ASEAN, Viet Nam is joining the international integration process. Hence, it is vital to create labor in order to compete fairly with the regional country and the world on 18<sup>th</sup> October, 2016, the prime minister enforced policy number 1982/QĐ-TTG about approving the Vietnamese Qualifications Framework (VQF). Thus, what the higher education should do is to adjust, update the education program so that the learning outcomes of the students meet the requirement of the VQF rules as well as improving the quality of labor training to gain the profits of attending ASEAN.

#### **The meeting purpose**

Facing the need of adjustment, updating university education program to meets the requirement of the VQF, the aim of this scientific meeting is to raise understanding of the Vietnam Qualifications Framework and train the labor well in order to create a recognition among Viet Nam and the countries in ASEAN; to build a research network between lecturer, management staff of education, the transfer learners, cooperate to study about problem in making quality labor for Viet Nam.
